WORK EXPERIENCE

Nov 2025 - present

Engineer On-Site

PT Finnet Indonesia (Telkom Group)

- Proactively monitored critical Finnet services and transactions to detect anomalies, diagnosing and resolving critical system issues for priority partners (e.g., Pegadaian, BPJS, and Tokopedia).
- Utilized SQL/NoSQL database queries to investigate transaction failures, payment errors, and biller system anomalies.
- Provided immediate technical solutions and root cause analysis to partners, ensuring minimal disruption to payment services.

Jan 2024 - Nov 2025

Freelance Product Specialist

PT Finnet Indonesia (Telkom Group)

- Developed Business Requirement Documents (BRD) and Process Requirement Documents (PRD), coordinating with stakeholders to translate business needs into technical requirements for key projects, including VA, Biller, and BI-Fast service integrations.
- Led the UI/UX design process for the aforementioned integrations, establishing design systems to ensure seamless alignment between product design and development execution.
- Conducted User Acceptance Testing (UAT) to validate system functionalities prior to release, and managed project workflows efficiently using ClickUp and Trello.

EDUCATION

Sep 2020 - Nov 2024

Bachelor of Informatics

Universitas Dian Nuswantoro (Dian Nuswantoro University)

Served as Multimedia Coordinator for DOSCOM (tealinuxos.org) and completed MBKM Independent Studies in UI/UX Design (Hacktiv8) and Mobile Development (Bangkit Academy).

PERSONAL STATEMENT

Experience in technology and digital solutions. Skilled in system analysis, documentation, and cross-functional collaboration to support business and technical needs. Passionate about leveraging technology to enhance business processes, improve operational efficiency, and deliver better service experiences.

SKILLS

- API Integration
- Product Research and Development
- Business Requirement Document (BRD)
- Business Process Analysis
- System Architecture
- User Acceptance Testing
- Time & Workflow Management
- Agile Scrum Methodology
- Software Development Life Cycle
- IT Project Management

- Wireframing and Prototyping
- Database Query

SEMINARS AND TRAININGS

May 2026 - May 2026	Business Development MySkill
Apr 2025 - Jun 2025	Fullstack Web Developer (MERN Stack) Sinau Koding
Feb 2024 - Apr 2024	UI/UX Designer Binar Academy
Feb 2023 - Jul 2023	Mobile Development Cohort Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

AWARDS AND ACHIEVEMENTS

Jun 2026	Top 10 Product Innovation Integrated with Astrapay Ecosystem Astrapay
----------	---

PROJECTS

Jun 2026 - Sep 2026	Ugame Indonesia Product Owner Built and operate Ugame.id, an officially registered digital top-up platform. Managing this independent project allowed me to execute the complete SDLC end-to-end. My hands-on responsibilities range from analyzing initial business and legal requirements, to full-stack development, third-party system integrations, and conducting rigorous UAT prior to release.
Jun 2026 - Jun 2026	Payment Chat (Astrapay Hackathon 2026) Product Development Developed a conversational commerce platform by integrating the WhatsApp API with the AstraPay sandbox, demonstrating rapid prototyping and seamless third-party API implementation.
Apr 2025 - Nov 2025	Fee Management System Product Designer Led the product design for a comprehensive financial management dashboard. Translated complex business logic and fee structures into an intuitive user interface, ensuring seamless alignment between business requirements and technical implementation.
Jan 2024 - Jun 2024	Finpay Kirim Uang Product Designer Designed the end-to-end user journey for a digital remittance platform. Established a scalable design system and collaborated closely with the engineering team to ensure the final product met both business objectives and user needs.
